

TECHNICAL DATA SHEET

ANIMAL NUTRITION

Presentation:

25 kg and 50 kg bags, 1000 kg bulk bags.

Storage:

Store in original packaging. Keep dry.

Description:

Premium nutritional-grade sodium bentonite powder. Engineered for superior cation exchange and surface adsorption. Ideal for mycotoxin control.

- Powerful binder for compound feed manufacturing.
- Proven mycotoxin binder, validated by USA laboratory studies.
- 100% natural, non-toxic and safe for animal nutrition.

Technical Properties:

Property	Specification
Moisture (%)	10 ± 3
Particle Size (+200 ASTM)(%)	80 ± 10
pH	9 ± 2
Swelling	<30

Safety:

Natural product. Safe to handle. Consult the Safety Data Sheet (SDS) before use.
